

AMENDMENTS TO THE SPECIFICATION:

Please replace the title with the following rewritten version:

-- METHOD AND SYSTEM OF PRODUCING ANALYTICAL DATA RESULT --.

Please replace the paragraph beginning at page 25, line 3 with the following rewritten version:

-- The analytical server 1 collects and analyzes measurement data from each measurement device 2, and returns analytical data (which is tantamount to an analytical result) to each user. The analytical data is purchased and provided to a user in accordance with a contract between a service provider and the user. The service provider and user will have previously entered into a contract relating to the contents of the analysis service and its cost. --
